

Labourer

ABOUT US

Aecon Industrial Construction Inc. is a multi-disciplined construction company offering superior civil, electrical and mechanical services including piping, insulation, scaffolding, and module fabrication. As one of Canada's largest and most diverse construction and infrastructure development companies, we're always on the search for exceptional craft candidates to fill our ever-expanding project portfolios. We are focused on hiring only those exceptional individuals who value safety in the workplace and remain committed to the collective goal of maintaining our Aecon 'zero injury' culture.

PURPOSE OF THE POSITION

Reporting to the appropriate site supervisor, the Labourer will be responsible to ensure Aecon Construction Solutions Inc. achieves their general and specific project requirements.

ESSENTIAL FUNCTIONS AND RESPONSIBILITIES

- Prepare and clean up construction sites
- Move materials and equipment and perform demolition, excavation and compaction activities
- Handle and distribute construction materials (e.g. load and unload vehicles with supplies, equipment and construction materials; move tools, equipment and construction materials to and from work areas; remove rubble and other debris)
- Excavate, backfill and compact subgrade (e.g. move and level earth using shovels and rakes, operate pneumatic tampers)
- Place, consolidate and protect case-in-place concrete or masonry structures (e.g. shovel cement and other materials into cement mixers, mix, pour and spread concrete; use electric and pneumatic vibrators)
- Assemble and dismantle scaffolding, ramps, catwalks, shoring and barricades at construction sites

KNOWLEDGE AND SKILLS

- Physical strength and stamina
- Manual dexterity
- A safety-conscious attitude
- The ability to work with others in a team
- Must be willing to work in remote job locations
- Repetitive movement
- Able to perform in a fast-paced environment
- Continuously changing work tasks
- Ability to work a significant number of hours throughout the day
- Ability to lift and work with materials weighing up to 25kg
- Ability to work in all weather conditions and environments
