

Careers | ERT FIRE & RESCUE (ONTARIO)

About Haztech:

Haztech is a leading North American provider of professional, innovative, and tailored healthcare and technical safety services across a diverse range of sectors including Mining and Resources, Oil and Gas, Government, Defense, and the General Public. Haztech delivers robust, consolidated, and sophisticated services including on-site doctors, nurses and paramedics, remote access health centers, and health & safety programs.

Our scope of service also consists of occupational health testing, covid-19 testing, firefighting – rescue and emergency services, primary healthcare, medevac, security, safety training, and return-to-work management. We have a proven and unparalleled commitment to customer service, reliability, and efficiency with credit to our team of highly dedicated health & safety professionals.

Position Summary

As a member of Haztech's ERT team you will respond to emergency situations to protect people, the environment, and property from all types of accidents and emergency situations. Responsibilities include the use of skills and expertise in fire, rope rescue, confined space rescue and medical emergencies. You will inspect and monitor confined spaces/work at heights as required and ensure rescue, fire and EMS equipment is inspected and maintained. As a member of the ERT team you will also create and review site rescue and fire plans and run drills and training.

All safety procedures must be followed strictly at all times and maintain a clean and orderly environment. The goal with this role is to optimize emergency response plans and procedures and succeed in producing reliable and important results that can be used to keep project personnel and the local community safe.

The chosen individual will perform this diverse range of activities with a focus on safety, professionalism, and teamwork.

Qualifications, Skills & Competencies

- NFPA 1001 Level I and II
- NFPA 472
- NFPA 1006 (or equivalent)
- First Responder Level "B", EMR or PCP designation
- Swiftwater Rescue an asset
- Ice Rescue an asset
- Strong written and verbal communication skills
- Self-motivated
- Criminal record clearance
- Class 4 drivers license, and clear drivers abstract

Please email your resume to hr@haztech.com by June 27, 2021.

Haztech is an equal opportunity employer and encourages applications from all qualified individuals. We thank you for your interest. Only those selected for an interview will be contacted.
