

Environmental Coordinator - (13003)

TO APPLY VISIT: [www.iamgold.com/cotegoldcareers](http://www.iamgold.com/cotegoldcareers)

### **Role Details**

Operations:

- Provide daily technical support and assistance to the Environmental Superintendent and Senior Coordinator directly overseeing Field Monitoring Programs (Biodiversity and Natural Science, Surface/Groundwater, Hydrology, Air Quality, Wildlife, etc.)
- Monitoring all activities at the mine site that are potentially harmful to the environment and seek ways to improve them
- Coordinate logistical requirements of monitoring activities being performed by various consultants
- Supervise a multidisciplinary team of Environmental Technicians, Monitors and seasonal Environmental Assistants
- Management of monitoring data including data entry, database management and quality assurance.
- Maintain field environmental compliance files and assist in effluent treatment operations on site
- Maintain field environmental compliance files
- Participate in meetings and field inspections with the company, companies consultants, and regulatory agency personnel, as required
- Support site operations by planning and delivering environmental training for staff and contractors
- Other duties as required directed by the Environmental Superintendent and Senior Coordinator from time to time.

Environmental Legislation:

- Implementation, development and continuous improvement of environment-related processes and procedures
- Assisting in the assessment of new projects for potential environmental/legislative conflicts
- Staying abreast of environmental legislation
- Assisting in the development and implementing procedures and scopes of work to satisfy provincial and federal government regulatory requirements
- Stand-in for the Environmental Superintendent or Senior Coordinator to liaise with Government Agency personnel regarding permits, permit violations, permit amendments, etc.
- Implementation of procedures and policies and proactive measures and studies to prevent permit violations and further project development at the operational level

Site Personnel:

- Providing environmental information and training to employees
- Supervise and manage environmental technicians, technologists, consultants and/or contractors as needed

**Qualifications**

- Bachelor of Science or Technical Diploma in Environment Studies.
- 5-7 years of environmental and mining-related experience. (Minimum of 7 if Technical Diploma)
- Excellent knowledge of Government Acts and Regulations.
- Good understanding of the environmental impact of mining and milling processes.
- Ability to communicate effectively both orally and written, with both internal and external contacts and the ability to work with all levels of the organization
- Excellent organizational skills, detail-oriented
- Must be able to handle a high level of confidentiality
- Ability to work with others in a team environment
- Ability to organize and prioritize job duties
- Pleasant and courteous in interpersonal interactions
- Good IT knowledge
- Valid Drivers Licence
