

Environmental Specialist - (13004)

TO APPLY VISIT: www.iamgold.com/cotegoldcareers

Role Details

Site Operations:

- Taking a lead in all external reporting as required under existing permits, licenses and the Company's environmental management system
- Update Project environmental management and monitoring plans to reflect Project operations and procedures
- Responsible for data management for the Projects monitoring programs
- Coordinate the implementation of and provide direction concerning ongoing environmental permitting initiatives as they pertain to on and off-site contractors, consultants and site staff and personnel
- Supervise a multidisciplinary team of Environmental Technicians, Monitors and seasonal Environmental Assistants
- Prepare environmental field reports/memos, compliance reports, and online reporting functions as they pertain to regulatory and permit requirements. Experience reporting through the ECCC SWIM (NPRI, MERS, GHG, etc.), MECP Water Taking Reporting System and Hazardous Waste Information Network would be an asset
- Management of monitoring data including data entry, database management and quality assurance
- Participate in meetings and field inspections with the company, companies consultants, and regulatory agency personnel, as required
- Other duties as required directed by the Environmental Superintendent and Senior Coordinator from time to time

Environmental Legislation:

- Implementation, development and continuous improvement of environment-related processes and procedures
- Responsible for the review of construction scopes against regulatory requirements, permit conditions, and Environmental Management Requirements
- Provide a professional opinion on matters related to the execution of environmentally sensitive scopes
- Monitor compliance to permit conditions and Environmental Management Requirements through field inspections, focus assessments and audits
- Liaisons with Ministry of Environment personnel regarding permits, permit violations, permit modifications, etc.
- Developing procedures and policies and implementing proactive measures and studies to prevent permit violations

Site Personnel:

- Providing environmental information and training to employees
- Supervise and manage environmental technicians, technologists, consultants and/or contractors as needed

Qualifications

- Bachelor's degree or technical diploma in Environmental Sciences.
- RP.Bio, EP, P.Geo, P.Eng designation would be an asset.
- 5-7 years of environmental and mining-related experience. (Minimum of 10 if technical diploma.)
- Excellent knowledge of Government Acts and Regulations.
- Excellent skills in project management, technical writing, construction planning and execution monitoring
- Good understanding of the environmental impact of mining and milling processes.
- Ability to communicate effectively both orally and written, with both internal and external contacts and the ability to work with all levels of the organization
- Excellent organizational skills, detail-oriented
- Must be able to handle a high level of confidentiality
- Ability to work with others in a team environment
- Ability to organize and prioritize job duties
- Pleasant and courteous in interpersonal interactions
- Good IT knowledge
