

# Senior Estimator

Wood currently has an exciting opportunity for a Senior Estimator to provide estimating services for our Construction Project near Gogama, Ontario. If you have a successful track record and thrive on challenges in a fast-paced environment, this is the opportunity for you.

## Key Responsibilities

- Prepare capital cost estimates and cost forecasts for the Construction phase.
- Produce Basis of Estimates for Establishing estimate methodology
- Define estimate inputs, coordinate and provide direction to all parties responsible for the capital cost estimate
- Obtain quotations from suppliers and subcontractors to support capital cost estimates
- Perform high-level analysis of project quantities and costs for reasonableness
- Understand and direct effort to focus on significant cost drivers
- Anticipate overlaps and gaps in costing and be proactive in pursuing resolution
- Prepare presentations and present estimates to Project Management
- Prepare and maintain appropriate documentation to support estimate preparation and reviews
- Establish good working relationships with staff, engineering discipline leads, department and project managers and clients
- Keeps stakeholders fully informed of progress and ensures their buy-in to the estimate plan
- Produce capital cost estimates of high quality that are defensible

## Skills / Qualifications

- Minimum of 10 years experience in estimating and leading capital cost estimates for mining or heavy industrial projects
- Previous senior estimator experience on large industrial projects over \$1 billion
- Demonstrated experience with estimating costs for international projects
- Excellent oral and written communication skills, with proven capability in delivering presentations to senior management
- Effective organizational skills, strong work ethic and leadership skills
- Demonstrated skill to identify and solve problems in a prompt and decisive manner
- Sound knowledge of construction processes
- Knowledge of the AACEI estimate classifications and guidelines
- An engineering degree or engineering technologist diploma would be considered an asset
- Experience in mining and estimating heavy civil works would be considered to be an asset
- Authorization to lawfully work in Canada without sponsorship from Wood is required
